WORK EXPERIENCE

Developer   **June 2014 Current**

Comtekh Berlin, New Jersey

Develop front and back end systems for internal tools and customer-facing applications. Write, update, and manage database systems.

Customer Service   **July 2013 June 2014**

Comtekh Berlin, New Jersey

Provide support for our internally developed tools and maintain our in-house N.O.C. Provide high and low level billing reports to contracted customers through use of internal tools as well as Database queries.

EDUCATION AND TRAINING

Current   Rutgers University Coding Bootcamp (In-Progress)

Projects and Applications

Tune-Up

An Artist search application that displays a list of the searched Artist's albums, and all of The song tracks associated with it. When clicking a song title, a modal will display the lyrics For that song.

Lead Developer in a team of four
